THE CHALLENGE

The Problem

After gym sessions, wet towels sit in bags for hours — creating the perfect environment for bacteria and bad smell.

Wet Towels Stay Damp

Towels remain moist for hours inside closed gym bags with no air circulation.

Bacteria & Odor

Moisture + warmth causes rapid bacterial growth and unpleasant smell on fabric.

No Portable Solution

Existing dryers are large household appliances — nothing exists for on-the-go use.

THE CHALLENGE

Our Solution

Smart DryBag

A portable, self-contained bag that actively dries and sanitizes towels using built-in airflow, mild heat, and optional UV-C — no outlet, no laundry needed.

Active Airflow	Removes moisture through built-in fan + low heat
UV-C Sanitation	Optional UV-C light reduces bacteria on fabric
Fully Portable	Rechargeable battery — fits in any gym bag

PRODUCT OVERVIEW

Product Description & Features

A waterproof portable bag with a sealed internal compartment that actively dries wet towels using integrated technology.

Sealed Waterproof Chamber

Isolates wet towels from other belongings — no moisture transfer.

Mini Fan + Mild Heat

Accelerates moisture evaporation and cuts drying time significantly.

Optional UV-C Light

Reduces bacteria on fabric for hygiene beyond simple drying.

Rechargeable Battery

No outlet needed. Fits any gym bag or backpack.

FUNCTIONALITY

How It Works

01

Place & Seal

Put wet towel in, close the compartment.

02

Humidity Detection

Sensor measures moisture inside.

03

Active Drying

Fan + low heat remove moisture.

04

Auto-Stop

System shuts off when dry.

HUMIDITY THRESHOLD LOGIC

Above 70% — **Wet**

Full drying cycle active

40 – 60% — **Drying**

Airflow continues

Below 40% — **Dry**

System stops automatically

BRAND IDENTITY

Logo & Slogan

Blue = comfort • Green = health • White = tidiness • T = Towel, Time, Tidiness

"WIN TIME. FEEL COMFORT"

Our slogan speaks directly to the two pain points from our research:

Win Time

For the 78% who carry wet towels because they're rushing between gym, work, and home.

Feel Comfort

For the 64% bothered by odor and the 71% who want a hygiene solution.

MARKET RESEARCH

Survey Results

We surveyed active gym-goers in urban Korea. The results confirmed strong, unmet demand for a portable hygiene solution.

78%

Carry Wet Towels

take damp towels home in bags after gym

64%

Experience Odor

report bad smell from stored wet towels

71%

Want a Solution

are interested in a portable drying product

Korea's fitness market context: 13% of consumers hold gym memberships and 43% actively spend on sports monthly (Statista, 2024–2025).

TARGET AUDIENCE

Who We're Selling To

Primary Target

Urban Gym-Goers, Age 18 – 35

- Students and young professionals
- Regular gym habits (3+ times a week)
- Health- and hygiene-conscious
- Digital-native — live on phone
- Willing to pay for convenience

Large Urban Gym Population

Korea has a booming fitness culture, especially in Seoul, Busan, Incheon.

Humid Climate

Korean summers keep fabrics damp longer — product relevance increases.

Post-Pandemic Hygiene

Consumers are more sensitive to sanitation than ever before.

MARKETING PLAN

How We Reach Them

Digital-first strategy — our audience lives on their phone, so we skip TV entirely and focus spend where they already are.

ADVERTISING CHANNELS

Instagram & TikTok

Before/after Reels: wet in, dry out in 30 min

YouTube Fitness Creators

Mid-tier Korean influencers (10k–100k)

In-App Fitness Ads

Strava, MyFitnessPal, Nike Training Club

WHERE WE SELL

Direct-to-Consumer Website

Primary channel — full margin

Coupang & Naver Smart Store

Korea's biggest e-commerce reach

Gym Partnerships

Anytime Fitness, Fitness Club kiosks

MARKETING PLAN

Brand, Promos & Companion App

Brand Vibe

- Dark, minimal, tech-meets-gym
- Blue–white accents from logo
- Hero video: seal bag → dry towel 30 min later
- Instagram grid: clean, editorial tone

Promotions

- Launch: 20% off first 1,000 units
- Free quick-dry towel bundled
- Referral: bring a friend, both save
- Student discount for 18–25 segment

Companion App

- Real-time drying cycle tracking
- Battery + UV bulb health alerts
- Hygiene tips & reminders
- Gamified "dry streak" challenges

FINANCIAL PLAN

Cost, Pricing & Profit

PRODUCTION COST PER UNIT

COMPONENT	COST (KRW)
Waterproof bag + chamber	10,000
Mini fan + heating element	12,000
UV-C LED module	4,000
Humidity sensor + PCB	8,000
Rechargeable battery	10,000
Assembly + packaging	6,000
TOTAL COGS	**₩50,000**

RETAIL PRICE

₩119,000 ~ $89 USD

~58% gross margin

YEAR 1 PROJECTION (CONSERVATIVE)

Units sold	**10,000**
Revenue	**₩1.19 B**
COGS	**₩500 M**
Marketing + Ops	**₩400 M**
NET PROFIT	**~ ₩290 M**

CONCLUSION

Why Smart DryBag Wins

Portable & Effortless

Drop towel in, seal, walk away. No setup, no plug, no laundry.

Superior Hygiene

Active drying + UV-C beats letting towels rot in a gym bag.

Cost-Efficient to Build

Simple accessible components keep production costs manageable.
